

Compressor Cleaning Agent

ISO 9001:2015
Registered Facility

ISO 14001:2015
Registered Facility

PRODUCT DESCRIPTION

Non-solvent-based cleaning agent that removes sludge and varnish from rotary screw compressors. Compatible with conventional mineral oils and most synthetic compressor oils. Not compatible with polyglycol or silicone oils.

INSTRUCTIONS

Follow these instructions when using SevAir Compressor Cleaning Agent (**treat rate = 10 percent of reservoir capacity**):

1. Ensure availability of extra filters should plugging occur during cleaning
2. Determine oil reservoir capacity
3. Drain 10 percent of existing oil from reservoir and replace with SevAir Compressor Cleaning Agent
4. Operate compressor normally for up to 40 hours, periodically checking cleanliness
5. Drain treated oil from compressor while hot to ensure removal of suspended deposits
6. Replace filters and refill with new oil
